- Teams Meeting 10/02
- SWIoT Meeting 12/02
- SWIoT Meeting 19/02
- Teams Meeting 22/02

+ Add a card

Policies and Resources

- Each team member must only do one stage, specification, implementation and validation before handing over the task
- A branch must be created for each technical task during specification and the link to the branch must be linked in the card. Use the Github plugin.
- Workload estimations must be added to each card with a - WL notation
- All meetings must be recorded on the meetings list.
- Task annotation - every task in doing must be tagged
- All meetings must have full attendance from all group members.
