Policies and Resources

Each team member must only do one stage, specification, implementation and validation before handing over the task

A branch must be created for each technical task during specification and the link to the branch must be linked in the card. Use the Github plugin.

Workload estimations must be added to each card with a - WL notation

All meetings must be recorded on the meetings list.

Task annotation - every task in doing must be tagged

All meetings must have full attendance from all group members.
